Docket No. 40-8681
SUA-1358, Amendment No. 30

Umetco Minerals Corporation
ATTN: Rick Van Horn
P.O. box 1028
Grand Junction, Colorado 21502

Dear Mr. Van Horn:

We have reviewed your January 18, 1989, request for a license amendment for the White Mesa Mill to authorize plant testing of alternate feed materials received from Teledyne Wah Chang Albany. Our review of your request has determined that the proposed feed material meets the criteria of being reclaimed or recycled in accordance with RCRA, does not contain RCRA hazardous waste, and is to be processed primarily for the recovery of uranium and for no other primary purpose.

Therefore, pursuant to Title 10 of the Code of Federal Regulations, Part 40, Source Material License SUA-1358 is hereby amended by adding License Condition No. 54 to read as follows:

54. The licensee is authorized to conduct plant testing of source materials from the Teledyne Wah Chang Albany facility in accordance with the amendment request dated January 18, 1989.

All other conditions of this license shall remain the same. The license is being reissued to incorporate this amendment.

The issuance of this amendment was discussed and agreed to in a conversation between Pete Garcia of my staff and you on May 29, 1992.

Sincerely,

Ramon E. Hall
Director
